RE: KEYF(AM), Dishman, Washington  
Facility Identification No. 53148  
Notice of Return to Operations

Dear Ms. Dortch:

On behalf of Mapleton License of Spokane, LLC, licensee of KEYF(AM), Dishman, Washington, and pursuant to Section 73.1560(d) of the Commission's rules, we hereby notify the Commission that KEYF(AM) is no longer silent and has returned to operations, but at reduced power, and at variance with its existing Special Temporary Authority ("STA") for reduced power (BSTA-20141110AGG, as extended by BESTA-20150506AAJ, the "Reduced Power STA"). In the event that operations cannot be returned to the technical parameters approved by the Commission in the Reduced Power STA, at which time the Commission shall be notified, or to full power operations within 30 days, a new request for Special Temporary Authority will be filed with the FCC.

Please notify the undersigned if there are any questions.

Respectfully submitted,

Christina H. Burrow
